

4 August 2009

Mr Matt Keys  
Managing Director  
Habitat Environment Management  
P O Box 1141  
NERANG QLD 4211

Dear Matt,

**Re Park Springs Residential Estate, Upper Coomera  
Trade Reference**

Habitat Environment Management was engaged as the landscape contractor for the Park Springs residential estate in Upper Coomera, Queensland. The construction scope on this project included creek stabilisation and parkland revegetation as well as services during the On Establishment and On Maintenance periods.

Habitat provided a level of service well above that of landscape contractor. They showed initiative and consistently protected our client's interest, demonstrating both vigilance and care with regard to all dealings with the local Council.

With both our client and our team being based interstate, having a competent and experienced contractor was invaluable. We relied heavily upon Habitat's ability to accurately convey the situation on the ground and successfully resolve on-site challenges with a minimum of fuss.

Our dealings with Habitat have been excellent. They are reliable and are always available to assist. I have no hesitation in recommending them to prospective clients and am willing to confirm this directly if required.

Yours faithfully,

**Laurel Robison**  
**Design Manager**  
**HardeL Project Management Pty Ltd**
